Clinical Legal Education

Reprinted 2006

Price Rs 285.00

This handbook provides an introduction containing some ground rules on clinical education, born out of the experiences of several professors teaching in clinical programmes at different law schools across the world.

The book is divided into three parts.

- Part I - Contains an overview of the goals and the need of clinical legal education.
- Part II - Each chapter is written by an experienced clinical teacher in context of the history and need of Indian legal education.
- Part III - Contains the Bar Council of India Rules, laying down the standards of professional conduct and the procedure for training and enrolment of advocates.

The book is a must for all law school libraries as a guide for clinical law teachers and law students. It is helpful even for practising lawyers.

Academy Law Review : "... on the topic of clinical legal education this book under review is an unparalleled endeavour. Academics as well as law students can get from the book a treasure of information to orient themselves."

Cochin University Law Review : It is a must for all Law School libraries as a guide for clinical law teachers and law students. It is helpful even for practicing lawyers. The price is very reasonable.

Avtar Singh

Law of

Arbitration & Conciliation

(including Alternate Dispute Resolution Systems)

8th Edition, 2007

Price Rs 265.00

Arbitration as a remedy for settlement of disputes has today gained in popularity and importance.

The new edition presents in a simple and lucid style the changed law as contained in the new Act, the Arbitration and Conciliation Act, 1996

and includes a section dealing exhaustively with 'Alternate Disputes Redressal' systems. The discussion is supplemented by copious reference to Indian and English cases. The work now fully covers the syllabus for the subject as taught in LL.B. 3-year and 5-year courses. It would also be of immense help to students of other competitive examinations and junior lawyers who wish to develop an understanding of the subject.

Law Books in Review, U.S.A.: The law under the Act has expanded, and the treatise has grown to match this expansion. The treatise is presented in the form of a detailed annotation of the statute, and the annotation provides clear textual explanations of all aspects of the statute and citations to the full range of relevant cases decided under it.

Gujarat Law Reporter: The book is written in simple and lucid language by the learned author. A very large number of latest cases have been added in this book. Cases have been picked up from Indian sources and also those of the important commercial nations of the world. This book is useful to Bench, Bar and those who are interested in this subject.

Laws of Banking and Negotiable Instruments

An Introduction

Avtar Singh – 2007 Edition
Rs 240.00

This splendid work covers the subject as
taught for LL.B. as per the current syllabus.

The law of banking is comprised of many
branches of law. The statutory content of

the subject is to be found in many Acts, the Banking Regulation Act and Negotiable Instruments Act being primary among them. The Contract Act (especially pledge) also applies because every relationship is founded upon contract. The Transfer of Property Act also applies because the provisions as to mortgages are to be found in this Act. Apart from this, banking services fall under the Consumer Protection Act also. These are but some examples. The author has covered all these statutes in hsi discussion.

The Negotiable Instruments Act was amended in the year 2002. Some new sections were inserted in relation to the liability for dishonour of cheques. A few other amendments became necessary because of the developments in the electronic field, for example, new provisions deal with truncated cheques, electronic image of a cheque, asymmetric crypto system, print out of electronic image, etc. The highlight of the changes has been provided in the Appendix.

An indispensable publication for banks, commercial establishments,
Bench and Bar and the students of law, banking and commerce.

The book presents a systematic commentary on a subject
of great importance. With the help of relevant statutory
material and recent cases, the author very successfully
presents in simple language and lucid style, the laws
relating to transport by road, rail and sea. In addition to the Indian and
English authorities, the author has also taken proper note of the American,
European, Malaysian, New Zealand and Australian authorities as well.

**The Code of Civil Procedure (Amendment) Acts of
1999 and 2002**

Acclaimed today for its fresh and novel approach
and prescribed in most law colleges throughout
India, the book has succeeded in its objective to
provide the reader a complete grasp and
understanding of the general principles of Civil
Procedure and a mastery over the subject.

The author has critically discussed and analytically dealt with all the
amendments till date in the present work. Various topics have been
discussed in detail keeping in mind the relevant decisions. The scheme
has also been improved and has been made much more methodical,
scientific and systematic. Topics dealt with extensively in the light of
latest judgments are: ● Jurisdiction of Civil Courts ● Res Judicata ● First
Appeals ● Cross-Objections ● Second Appeals ● Revisions ● Interlocutory
Orders ● Interim Injunction ● Recording of Reasons ● Letters Patent
Appeals ● Powers and Duties of Appellate Court etc. parties to Suit,
● Issuance of Summons ● Statutory Notice (Section 80), etc. Execution
proceedings have been made more informative and methodical. Recent
decisions of the Supreme Court and important decisions of High Courts
have been included. Illustrations have been multiplied.

Avtar Singh

Company Law

15th Edn., 2007

Price Rs 365.00

This book has had a consistent record of success
and popularity over the last forty-one years. The
new edition is thoroughly revised and updated and
incorporates changes introduced in the statute law
as also the significant developments in case-law.

The Companies Act was amended twice earlier to
the present edition. One of the Amendment Acts
brought into the Companies Act a huge new part

on producer companies. The Second Amendment Act, 2002 apart from making other changes, also brought in a new part providing for Revival and Rehabilitation of Sick Industrial Companies.

The Amendment of 2006 has added a few provisions to bring about the requirement that all directors, existing or proposed, should obtain an identification number. The Amendment also enables filing and inspection of documents through electronic media.

There have been significant developments in the judicial front also which have been discussed by the author analytically and incorporated at the respective place in the book.

This very popular work has been the prescribed textbook in almost all law colleges in India through its several editions. Company executives, chartered accountants and company secretaries find it extremely useful in their day to day work. It is also beneficial to the legal profession and students of CA, CS, ICWA and other professional courses. This most lucid text deserves a place in all the law libraries.

Guide to Compliance Certificate

(with Procedures)

for Companies, Company Secretaries and other Professionals

2004 Edition Hardbound: Price Rs 550.00

Paperback: Price Rs 295.00

This very lucid and well planned work explains in simple language and style, the various requirements of the Compliance Certificate. It has been designed keeping in view the requirements of both — the companies as well as company secretaries. Every para of the Compliance Certificate has been discussed separately. A company may find detailed provisions and procedures to be followed to make required compliance under the Act, and can have a broader idea of significance of such compliance by looking at the penalty table which describes the liability a company may incur by not complying with the given provisions.

A company secretary may find where he has to focus his verification, what all he is to verify, what documents he may ask the company for making required verification, and a few tips for drafting the Compliance Certificate.

The Appendices contain the text of the various provisions of the Companies Act referred to in the book, and the text of selected Rules (including directions of RBI). Additionally some useful tables have been given such as 'Matters requiring Approval of Shareholders by Ordinary/Special Resolution', 'Specimen of Certificate', a Chartered Secretary may obtain from a Company.

Corporate Governance and Chairmanship

1st Indian Edition, 2003

Price Rs 595.00

Adrian Cadbury has had considerable experience of boards and chairmanship in Britain and abroad. In 2001, he received the International Corporate Governance Network Award.

Order copy / copies

Corporate governance has become a major issue in business over the last decade. The book provides a background to the theory of governance and its application in the business world.

The author discusses and explains the central issue of corporate governance; provides practical advice to chairmen and directors on their roles and responsibilities; and surveys the major codes of practice that have been developed in the last decade.

The author speculates on the implications of electronic developments for shareholders' voice and voting, the extent of a company's social responsibility, and the changing relationship between boards, managers, and investors.

The work is both an informed commentary and a practical guide.

This book is highly relevant for the Company Law course in the LL.B. programme, as prescribed in the latest UGC Model Curriculum, valid from July 2002—especially on a discussion on the protection of shareholder and minority rights, and how, in the light of recent accounting scams like those at Enron and Worldcom top management can be controlled and held to account.

Further, the author's insights will prove essential reading for anybody taking on senior roles in companies and other public organizations, and will provide well-grounded analysis for corporate lawyers, management academics, MBA and law students, and advisers.

Company Law and Corporate Finance

1st Indian Edition, 2003

Price Rs 895.00

The book provides a comprehensive account of the legal rules that apply in corporate finance. It examines the fundamentals of company law: how businesses in the form of a company are financed, and the legal and practical implications of these financing choices. Detailed legal analysis is successfully combined with discussion of corporate finance theory, commercial considerations and market practice.

A clear explanation of the legal rules that apply and how they work is further enriched by discussion of:

- the underlying purpose of the rules and how they fit with theories underpinning company law.
- how financing decisions can, in both theory and practice, affect the value of a company and its securities.
- the corporate governance implications of raising capital from outside investors

The book will be essential reading for all students of company law and corporate finance and will also be found useful by practicing lawyers, corporate finance professionals, managers of companies and investors.

The book is already a UGC prescribed textbook for the LL.B. (Hons.) and LL.M. courses, for the subject of Corporate Finance, as prescribed in the latest UGC Model Curriculum valid from July 2002.

Since the book discusses Company Law from the point of view of Corporate Finance this book is the ideal book on Company Law for MBA students and law students who wish to specialize as corporate lawyers.

Text of the Constitution amended up to date till the Constitution (Ninety-fourth Amendment) Act, 2006 and the Uttaranchal (Alteration of Name) Act, 2006

First published in 1950, this work has consistently grown in popularity and is today recognised as one of the foremost authoritative works on the subject. The tenth edition has been thoroughly and meticulously revised by Prof. Mahendra P. Singh, an eminent scholar of constitutional law.

From the very beginning this work has enjoyed a reputation and popularity which no other work on the Constitution of India has yet surpassed. It has been equally relied upon by legal scholars, practitioner, courts, and even non-law persons having any interest in the study of Indian Constitutional law. The work has achieved this stature, among others, for its plain and simple language, accurate and authentic statement of law, brevity and precision, and, wherever necessary and appropriate, reference to historical and comparative materials.

Consumer Protection

Avtar Singh
**Law of
Consumer Protection**
(Principles and Practice)

4th Edn., 2005 Hardbound - Price Rs 590.00

This updated edition of the book deals with the Consumer Protection Act of 1986 and the complete overhauling of

its structure brought about by the amendments of 2001 & 2002.

Significant decisions of the Supreme Court and the National Commission have contributed greatly to the development of the law on the subject and have been analytically dealt with by the author at appropriate places in the book. In addition, a good number of foreign cases have been added, e.g., those of English and EEC Courts showing their experiments with consumer protection programmes. In order to illustrate and exemplify the law in various areas of commerce and services, the author has used the recent and landmark decisions of the consumer courts and explained the law thereto.

Useful practice notes have been provided for filing complaints with consumer redressal forums, for preparing written statements, appeals and for getting orders executed. The clear presentation makes it very easy even for a layman to understand the law, his rights and obligations and how to proceed in case he wishes to file a suit under the Consumer Protection Act to defend himself.

This book would prove to be indispensable for judges, lawyers, law students, consumer protection forums and all those concerned with consumer rights in general.

The present anthology, 'Criminal Justice: A Human Perspective of the Criminal Justice Process In India', incorporating thought provoking essays written by scholars from India and abroad and edited by Prof. (Dr) K.I.Vibhute, endeavours to delve deep into the 'human rights perspective' of the individuals—accused, prisoner and victim of crime—who come in contact with the State, vital State functionaries—the police, prosecution, courts and peno-custodial correctional institutions—that are responsible for ensuring 'Criminal Justice'. As such, time and text both were significant in conceiving this treatise on Criminal Justice and Human Rights.

The compilations of essays, in this background, also offer extensive deliberations on 'Criminal law and Human Rights', 'Criminal Justice', and 'Human Rights Enforcement' which would prove useful to Lawyers, Judges, Academics, Human Rights Activists and Administrators.

Criminology & Penology

Ahmad Siddique
Criminology : Problems & Perspectives

Revised by S.M.A. Qadri
5th Edn., 2005, R/P 2007 Price Rs 295.00

Criminology is a systematic study of crime in all facets. The present edition of the book is being brought out after a gap of eight years. The law and subject of criminology have undergone a vast change during this period.

The new edition has been recast with a view to provide our readers with the latest material and law on the subject of criminology. Since the previous edition in 1997, a plethora of new crimes has been added to the world of crime such as cyber crime. Crime against women, children and violence, which includes custodial violence, has increased.

This edition also discusses the impact relating to juvenile delinquency the new Act of 2000. The impact of the new law has also been discussed in this edition.

A notable work in the area, the book is an original study of the various aspects of Criminology in the Indian context, though comparison has been made with other countries for both the students and the practising lawyer.

Environmental Law

2nd Edition, 2005

Price Rs 225.00

The first edition of this work was highly applauded by the readers.

This second edition includes two new chapters – (a) Forest and the Law and (b) International Environmental Law. The Biological Diversity Act, 2002 has also been incorporated as it has come into force in 2003.

Environmental Law is a growing branch of law – ever increasing, ever in demand, ever in discussion and ever in action. Thus, this new edition of the book is a well-timed and welcome comment on the subject. Justice V.S. Dave, in his foreword to the book says, "The book shows his immense interest, in-depth study and deep love for the subject and the concerned law."

History of India (Part-II)

2003 Edition, Reprinted 2007

Price Rs 135.00

This book is specially focused on the needs of law students. The work released earlier, i.e. History of India, Part I covered the period from the earliest times to the death of Aurangzeb and this continuation work now covers the period after the death of Aurangzeb to the present day. While dealing with the historical facts, the emphasis of the author is to reflect on the socio-political aspects as well as the growth of the legal institutions. A chapter on 'Makers of Indian Law' has also been added.

The chapter on Civil Services is a significant contribution, which one does not get in any other history book. On the whole a mixed menu of historical facts and events, interpretation and the contents are provided to provoke the thinking of students.

Basic Documents on Human Rights

1st Indian Edition, 2003

Price Rs 890.00

This new edition contains an extensive collection of key documents thoroughly covering all elements of the subject—with many new and amended instruments from areas as diverse as labour rights, children's rights, the human genome, and development—and is a firmly established resource for all students who seek a thorough grounding in international human rights law.

The editors provide introductory comments and references to the relevant literature, together with details of State participation, and offer a clear and

wide-ranging compilation of the most important instruments adopted by the United Nations and its agencies, by regional organization, and other actors in the field.

The book seems to have been compiled specially for: ● LL.B. programme — *Human Rights and International Law* course ● LL.M. programme— *The International Humanitarian Law* course; and the entire Group J: Human Rights Law (which contains six courses which are based on and require Human Rights documents thus in all SEVEN courses) ● LL.B. (Hons.)— *Implementation of Human Rights Standards* course. All the programmes have been prescribed in the latest UGC Model Curriculum, valid from July 2002.

In addition to law students, this book is an invaluable resource for the National and State Human Rights Commissions, NGOs protecting human rights, students of International Relations, and all practitioners of human rights law. An invaluable book for every library.

A Debate Over Rights

1st Indian Edition, 2003

Price Rs 545.00

Written in an essay form the collection engages in a lively debate over the fundamental characteristics of legal and moral rights. Each author considers whether rights essentially protect individual interests or whether they instead essentially enable individuals to make choices. Those interested in the basic nature of rights and other entitlements will profit greatly from reading this book.

The book would be particularly interesting and useful to Indian jurists, legal writers, academics and students who challenge the "rights-based jurisprudence" of "western origin" upon the basis of which the Indian legal system rests and the framework within which all legal adjudication in Indian courts takes place. This book with its emphasis on analytical clarity, can illuminatingly clarify that the debate in modern Indian jurisprudence is not so much about an emphasis on "rights" or "duties", for one correlates with the other, but rather who the right ought to vest in, or, taken the other way round, whom the duty ought to be owed to—the individual or the community.

The book is highly relevant for: ● LL.B. programme—*Jurisprudence* course etc. ● LL.M. programme—*Right-Duty correlation; Theories of Rights* course etc.. These are prescribed in the latest UGC Model Curriculum.

Law of Insolvency

4th Edn., 2004

Price Rs 195.00

The topic wise chapters cover and lucidly explain the various aspects of the law of Insolvency viz. - ● Object of insolvency laws ● Acts of insolvency ● Who can be adjudged insolvent ● Constitution and powers of courts under the Act and ● The various provisions pertaining to the filing of

petitions ● Proceedings in insolvency cases ● The administration of property ● Methods of proof of debts ● Antecedent Transactions ● Penalties for offences under the Acts ● Summary administration ● The appointment and removal of Official Assignee and his duties and powers ● The Doctrine of Reputed Ownership etc.

The judiciary has made important contribution to the development of the law on the subject and a number of important decisions have touched upon such important issues. The doctrine of reputed ownership, etc. etc. The author has dealt with all these matters in a most succinct manner.

The author's style is simple and lucid and makes easy reading.

A Table of Cases and a detailed subject-index add to the utility of the book.

Law of Insurance

2004 Edition

Price Rs 225.00

Insurance has become an inseparable part of personal, social and commercial life, acquiring the status of an industry. Risk management has become a special part of management education too. The changing scenario and newer issues and situations have created the need for reform in laws governing insurance. Some old Acts have been heavily amended and some new enacted. Dr. Avtar Singh in his work deals with all these laws, enabling the reader to comprehend effectively their principles and provisions.

The present book begins with a statement of the general principles affecting all forms of insurance. It then moves on to specific forms of insurance and includes all forms of insurance such as ● life insurance ● fire ● theft ● marine ● motor accident ● personal accident ● medical. Powers and duties of Regulatory Authorities and statutory framework of insurance has been stated in brief chapters.

A separate chapter deals with the disputes arising out of insurance claims and the Consumer Protection Law. Case-law has been studied from all available sources, including Indian and foreign law reports and articles published in foreign law journals too have been consulted and referred to.

Intellectual Property

Omnipresent, distracting, Irrelevant?

1st Indian Edition, 2005

Price Rs 285.00

In this age of global trade, Intellectual Property Rights (IPRs) have increasingly become a significant element of the economic policy of both the developed and the developing countries. The laws relating to IPRs are still in their nascent stage and full of loopholes and dichotomy. On the other hand, the advent of newer technologies has necessitated the existence of well-defined and efficient laws relating to IPRs. For example, free and ready access to material via Internet and other digital resources has threatened the copyrights of publishers, computer programmers and those into record and film production. Similar issues exist in the field of laws relating to trademark and patent rights.

In this book, the author has analyzed the subject in its entirety dealing with the above issues in a comprehensive manner. He has emphasized on the need to update the existing laws and introduce newer ones to match the fast pace of the evolving technology.

The book contains numerous references to controversial cases in the western world and thus could prove handy for lawyers while dealing with similar cases in the Indian context. A must read for lawyers, judges, Law students and all those who want to protect their right to intellectual property.

Acclaimed as a classic, this treatise on the art of writing judgments, from the pen of an erudite Judge and experienced author, has now been thoroughly revised and updated. Statute law and

also the case-law references in the book have been brought up to date at the relevant place. However, the basic nature and fabric of the work which has been much appreciated by the readers, has been deliberately left untouched. The learned author has dealt with the various aspects of a judgment from a practical point of view citing judicial decisions and statutory provisions to support the propositions made by him in the book. His exposition is highly valuable and instructive. Some chapters have been devoted even to the framing of issues in civil cases and framing of charges and award of punishment in criminal trial. A separate chapter deals with assessment orders in contested as well as uncontested cases.

The coherent and concise presentation of ideas and the simple language make the book easy reading. A welcome addition to any law library, this latest edition of the book, will be found useful by the members of the judiciary and the Bar as well as the candidates appearing for the judicial services examinations.

Central Issues in Jurisprudence : Justice, Law and Rights

1st Indian Edition, 2003

Price Rs 135.00

This book aims to provide a brief guide to the major theories and arguments which currently dominate discussion in Jurisprudence. The book is a "key", explaining broadly who says what and how one argument relates to another. An introductory book that provides the student with some preliminary orientation and is aimed to put the student, as quickly as possible, into a position where he or she can read the original writers with a real understanding of their theories. It gives the

basic idea of the subject — just enough to get the student started.

In only 150 pages, the book covers the key concepts of Rawls, Nozick, Finnis, Hart, Dworkin and Fuller among others in delightful simplicity and astonishing clarity. It is immensely useful for students to get the big picture of what each author is saying.

The book is highly relevant for the Jurisprudence course in the LL.B. programme, as prescribed in the latest UGC Model curriculum, valid from July 2002, as it is broken up into three parts which mirror closely the way the topics in the course are broken up: Justice, Law and Rights—and since the book is so short and simple—students can pick up key concepts quickly and easily. For students of the LL.M. programme, as prescribed in the latest UGC curriculum, valid from July 2002, it will prove an easy and readable introductory book for the courses "Concepts of Justice" and "Theories of Rights".

Matthew H. Kramer

In Defense of Legal Positivism: Law Without Trimmings

1st Indian Edition, 2003

Price Rs 550.00

The author is Professor of Legal and Political Philosophy in the University of Cambridge.

Whenever there is a legal rule, the question arises: what makes the legal rule different from other rules? For example how is a rule of cricket different from the legal rule that only the owner of a house (or those who have his permission) can normally enter it? This book explores this question in the context of morality—whether a legal rule must be moral before it can have the character of a legal rule.

The author distinguishes between different possible meanings of 'morality' in this context—whether a law has to be good and not evil for it to be a law—or whether a law has to be in the interest of the common people and not just politicians for it to be a law.

The main argument of the book, in defence of legal positivism, is that a law to be a law can be evil and a law can be purely in the interests of politicians and still be a law—it does not have to be good, and nor does it have to be for the benefit of the people. This is what the author calls the "separability of law and morality": the key argument of legal positivism.

The chapters of the book discuss the arguments of various authors, such as Fuller, Dworkin, Finnis and MacCormick—who argue that for a law to be a law it must be morally good. This means that, for example, in India a law to be a law must be Constitutionally valid. And since the Indian Constitution is considered morally good, if a law is Constitutionally valid, then it is morally good.

This book will be extremely useful for students of all Jurisprudence courses in India; especially those who need to study the 'Hart-Fuller debate' (discussed in Chapter 3 of the book) and the 'Hart-Dworkin debate' (discussed in Chapter 6 of the book), legal academics, teachers of Jurisprudence courses, and libraries. The book is especially relevant for the study of 'Analytical Positivism' and the 'Introduction' to the Jurisprudence course in the LL.B. programme, as prescribed in the latest UGC Model Curriculum, valid from July 2002.

Understanding Common Law Legislation Drafting and Interpretation

1st Indian Edition, 2004

Price Rs 375.00

There are many countries that use and apply the common law, which collectively may be called the common law world. A feature of this world is that nowadays it largely operates through statutes enacted by a country's democratic legislature, and that these mainly fall to be construed according to a uniform system of rules, presumptions, principles, and canons evolved over centuries by common law judges. The statutes subject to this interpretative regime may be called common law statutes. They are the main subject of this book, along with the said uniform system. The book distills and updates within a brief compass the author's published writings on statute law and statutory interpretation.

Law of Monopolies, Restrictive and Unfair Trade Practices

3rd Edition, 1993

Price Rs 85.00

The Act concentrates upon prevention and control of monopolistic, restrictive and unfair trade practices. By a notification issued under the Act, the provisions of the Act relating to such practices have been made applicable to industrial, trading and business operations undertaken by Government institutions also. On the judicial front, the probing hands of the Commission have discovered several practices that violate the spirit. The definition of 'restrictive trade practice' has been interpreted by the Supreme Court as a pragmatic and result oriented definition. Muslim Law

Revised by V.P. Bharatiya
4th Edn., 2004, Reprinted 2007

Rs 195.00

This compact work deals with and lucidly explains the principles of Muslim Law. The new fourth edition of this very popular work has been thoroughly revised and updated, keeping in view the tremendous developments that took place through the judicial decisions since the publication of the last edition. Landmark decisions affecting and changing some of the socially incongruous concepts relating to divorce, Mehar, maintenance, remarriage on motivated conversion, wakf beneficiaries, wakf boards, pre-emption, primogeniture etc. have been incorporated.

Another noteworthy feature of the book is the exhaustive analysis of the constitutional aspects of mohammedan law principles. Latest case-law has been examined to note these developments. Further, the interactions between the personal law and social ethos have been elucidated by notes. Opinions of academic jurists have also been included.

Negotiable Instruments

4th Edition, 2005 Hardbound - Rs 490.00

In this book for the first time the subject of negotiable instruments has been dealt with elaborately covering not only the latest case-law on the subject but also the recent amendments in the law relating to negotiable instruments. For

example, this is one of the first commentaries that incorporate the changes introduced by the Amendment Act 55 of 2002. The act has ushered in remarkable changes in its wake.

The work gives a detailed commentary on the three kinds of negotiable instruments recognised by the Indian Negotiable Instruments Act, 1882, viz., promissory note, bill of exchange and cheque. A comprehensive introduction, discusses the definition of a Negotiable Instrument and the kinds of negotiable instruments, the rights and duties of the parties as well as the legal conditions to complete the negotiable instrument, all explained in an unambiguous language. A large number of cases relating to cheques, including dishonour of cheques, have been discussed.

Another highlight of the book is its simplicity of explanation combined with a style that ensures easy understanding for the reader. The book will surely prove to be indispensable for lawyers, bankers, financial institutions, businessmen and students.

Indian Penal Code

2nd Edition, 2006

Price Rs 275.00

New

A well-researched book on the Indian Penal Code with a modern perspective in the context of the new social conditions. It incorporates the latest thinking on the various aspects of Criminal Law.

In the treatment of the subject matter, the relevant sections on a particular topic have been grouped together and discussed in their fullness keeping in view the cognate provisions in other laws and of other countries. Indian & foreign case-law with necessary facts has been cited and discussed quite frequently in the book and also references to the

opinions and views of other authors, both from India and abroad has been made. The recommendations of the various law commissions and the committees suggesting changes in the existing law have also been discussed. The book, thus, provides a comprehensive study of the various offences under IPC.

In this second updated edition, the author deals with various contentious topics and socio-economic crimes, such as, white-collar crime; capital punishment and President's power of pardon, Impeachment of a Supreme Court judge, the Telgi stamp fraud, Rupan Bajaj case, cyber crimes etc. and some new crimes like transsexualism, wife beating and domestic violence, thus further enhancing the utility of the book. The style of presentation of the subject matter is remarkable for its coherence and brevity of expression.

Additional material in the appendices add to the utility of the book. A Table of Statutes & Subject-Index further facilitate access to the rich materials in the book.

The book will be highly useful to those appearing for the administrative, civil and judicial examinations and also for the LL.B. & LL.M. exams. A handy referencer for police officers, law teachers, the research scholar and the practicing lawyer.

Price Rs 395.00

Shiva Gopal's Conveyancing, Precedents & forms is a clear, succinct and practical guide to the subject, and has today assumed the position of a classic on the subject. Five editions and several reprints have gone by and this is now the sixth edition of the work.

The new edition follows the style and pattern of the earlier editions and at the beginning of each chapter an updated text explains in sufficient detail the relevant law regarding the type of documents covered by that chapter. In the new edition statutory law amendments have been incorporated at the respective places and new precedents have been added where necessary. Latest case-law has also been added to the book.

The book is once again divided into three parts:

- Part I - Deals with conveyancing of deeds
- Part II - Deals with drafting of petitions for Courts under some special enactments and
- Part III - Contains statutory forms of everyday use.

Restitution

Gerard McMeel The Modern Law of Unjust Enrichment and Restitution

1st Indian Edition, 2003

Price Rs 695.00

The law of restitution is the law of failed or mistaken transactions. Given that almost as many transactions fail as succeed, it is as important and essential an area of law which the student and lawyer need to know as the law of contract.

The law of unjust enrichment has had a statutory basis in India since 1872, but it was only in 1991, in the landmark House of Lords case of *Lipkin Gorman v Karpnale*, that it was settled in England that the basis of the law of restitution is the unjust enrichment of the defendant. Once the basis of the law was settled in 1991, this area of the law has seen stupendous development in England in the following decade. This book written in a very simple and clear style, makes this difficult and new area of law easily accessible to the lawyer and the student.

The largest number of cases in this area relate to S. 72 of the Contract Act, and have to do with overpaid income tax, sales tax or excise duty, and the most difficult question before the Court is the defences available to the defendant. There has been a great deal of development and case law in this particular area in England, and there are six chapters in the book that cover a treatment of 'Defences'. Even though Indian law has had a statutory basis since 1872, the law is comparatively underdeveloped in India. This book, by making available all the latest developments in English law in this area in the 1990s, precisely, simply and in a small volume, can greatly aid the development of the law in India.

Therefore this book would be invaluable to Contract lawyers, Tax lawyers, Corporate lawyers, Government lawyers, judges, students and academics who wish to understand this complex area of law and contribute to its development in India.

Sale of Goods

Avtar Singh Law of Sale of Goods & Hire Purchase

6th Edn., 2005

Price Rs 165.00

This new updated edition of the book has been enriched with the developments that have come into being since the preceding edition. A good number of amendments have been incorporated into the Consumer Protection Act, 1986 which indirectly affects the Sale of Goods Act, 1930 also.

A combined reading of— ● Sale of Goods Act, 1930 ● Hire Purchase Act, 1972 ● Consumer Protection Act, 1986, (including topics like duty of carriers, onus of providing a burden of loss of goods, rights of carriers, insurers, scope of estoppel by negligence etc.)—serves to act as a protective shield around the buyer of goods and hirer of services against manufacturers, sellers and providers of services. To enable quick access to the information the author has given: ● Detailed Contents ● Subject Index ● Table of Cases contains the necessary citations to enable easier reference to the original reports.

A handy reference book which can easily be recommended to students preparing for professional examinations at any level. Even though the Sale of Goods law is an important branch of mercantile law, it extends its dimensions much beyond the commercial and the economic development and the social life in general. The book is of general interest and a must read for all those looking for a lucid exposition on the subject.

New
 B.M. Gandhi
Equity, Trusts & Specific Relief
 4th Edn., 2007
 Price Rs 250.00

This book brings a fresh approach to the subject and traces the evolution of the principles of Equity in India. The object of Equity and its role have been elucidated with special reference to the Manju Bhatia case, 1997 and the A.P. Financial Corporation case, 1994. Reference to the principles of Equity becomes necessary in the Indian Courts in

the matter of interpretation of relevant statutes of property, contract, mortgages, trusts, specific relief and the like where the statute is silent on a particular point. The principles of justice and conscience are thus the basis of equity jurisdiction, and equity has a role to play in the field of tort too. The author has taken pains to show the use of Equitable principles in the Indian context and has also made a comparison with the English law. This edition brings case-law on various points up-to-date. The book also includes an additional chapter on Fiduciary Relationships. An elaborate subject-index and table of cases add to the utility of the book.

Torts

Nicholas J McBride & Roderick Bagshaw
Tort Law

1st Indian Edition, 2003

Price Rs 595.00

Written in a lively and friendly style, Tort Law aims to provide the reader with a clear, accessible and up-to-date overview of the entire field of tort law. While Tort Law is primarily intended to help students studying tort law, at the LL.B., LL.B. (Hons.) or LL.M. level or for the Bar exam, it will also be of interest to academics, practitioners and judges. Tort Law discusses in detail:

- the facts and decisions in over 400 cases
- the concept of a tort and the nature of tort law, providing an intellectual structure for tort law in the twenty-first century
- the full range of torts recognised in English law
- the full range of remedies that may be awarded when a tort has been committed, including compensatory damages, aggravated damages, exemplary damages, restitutionary damages and injunctions
- proposals to reform problematic areas of tort law, such as the law on libel and slander, and the law on damages.

Areas of tort law that have traditionally proved difficult for students to understand — such as the law of negligence and the law of damages — are presented here in a way that makes the principles underlying those areas of law easy to understand and apply. In addition, the authors and publishers of Tort Law have combined to produce a companion website which will provide the reader with quarterly updates on recent developments in English tort law and model answers to a full range of tort problem questions.

A new chapter on 'Inchoate Torts' has been added discussing and explaining new situations which lie on the borderline of tort and contract, resulting in tort.

New cases, reflecting the growing case-law on the subject in India and abroad, have been introduced, such as on electrocution (Chapter

XVI) and liability in case of nuclear installations (Chapter XVIII) new developments and fresh thinking on the subject has been discussed in the new edition, such as the new concept of tort law as developed by McBride and Bagshaw.

Discussion about Judicial activism and Human rights also appears at appropriate places.

The subjects of Compensation under the Motor Vehicles Act and under other Statutes, and the Consumer Protection Act, 1986 too have been covered comprehensively by the author.

The book comprehensively covers the syllabus as prescribed by the Bar Council of India and as taught in various Universities throughout India. The work will indeed also be found useful by the lawyers and the judiciary for its rich collection of recent Indian and foreign material on the subject.

A Table of cases & a detailed subject-index further enhance the utility of this handy volume.

**Law of Tort
(alongwith Consumer Protection Law)**

9th Edn., 2004

Price Rs 240.00

This excellent work has been popular amongst the academic community for almost fifty-four years now. It is today a prescribed text in most law schools.

This book is scrupulously researched and well written. It is a meritorious contribution to the study of law of torts. Even given the fairly frequent references to foreign jurisprudence, this work remains predominantly Indian both in emphasis

and content. It incorporates all the leading decisions in Tort Law. The learned revising author, Dr. Avtar Singh has now thoroughly updated the work and added fresh material throughout the book on 'Law of Statutory Compensation' and a fresh chapter has been added on Consumer Protection. Tort Law is fast developing in India and the author has successfully analysed the modern thinking in the judgments of our Indian Courts. An important case in points is the judgment of the Supreme Court in *M.C. Mehta v. Union of India* (1987) 1 SCC 395, which the author has discussed in length.

The language and style of the author render the book engaging and make the subject interesting. The book has an exhaustive subject index for easy reference. The book is of immense use not only to students of law but also to the practicing lawyers. It is a valuable addition to any law library.

Basanti Lal Babel is a well-known author of several popular and useful books. He has written on diverse subjects.

His present work on the Transfer of Property will prove to be equally useful and popular. The author has made every effort to explain the principles of the transfer of property in a simple language and style without the use of too many technical words or complexity of expression.

As per the latest syllabus of the university, the author has modified the contents and included the Indian Easements Act, 1882 along with the Transfer of Property Act, 1882.

Indispensable for law students, law teachers, law officials, judges, lawyers etc.

**Law of
Transfer of Property**

5th Edition, 2005, Reprinted 2007

Price Rs 185.00

Property has, always, been one of the fundamental elements of socio-economic life of an individual. Consequently, the law relating to Transfer of Property is not only an important branch of Civil Law but also one that demands proper elucidation due to its complexity. The present work fulfills this requirement by providing an exhaustive and dependable commentary on the existing law on the subject.

This updated fifth edition of the book includes the latest case-law and has been substantially revised and expanded. For example, there is an additional chapter on the law relating to Easement and the chapter on the law relating to Trusts has been enlarged. The book now is in conformity with the UGC syllabus.

The author has used simple language alongwith suitable illustrations to explain the various concepts and laws. An added feature is a sectionwise list of contents that helps the reader to locate specific provisions given in the book. Also the exercises given at the end of each section enable the student to prepare precise answers.

As far as law relating to transfer of property is concerned this book would surely prove to be a mine of information for both the teacher and the student.

Law Relating to Women and Children

2nd Edition, 2008
In Press

In India feminine glory was at its zenith in the Vedic period, after which it suffered a decline. After Independence, the Constitution of India and some enactments provided for benign discrimination in favour of women and children. However, despite the laws, discrimination and violence continues unabated. The malaise of discrimination in

personal and labour laws is reflected in a number of cases filed in various courts of the country. While women attempt to empower themselves economically, they are faced with problems of sexual harassment at the workplace and domestic violence.

The gender sensitive approach of the judiciary, as is reflected in a number of decisions, however, is the ray of hope.

A sincere attempt has been made in this book to highlight the problems faced by women, the laws to safeguard their interests and the judgments given by various courts.

The other part of the book deals with the plight of children, because they are a national asset. Unfortunately, in our country children face problems of child labour, sexual abuse and child trafficking. In this part of the book all relevant enactments, provisions and latest case law have been incorporated relating to children.

The subject is of greater relevance today and has been introduced in the curriculum of undergraduate and postgraduate legal studies. The book will also be found useful for its wealth of material by lawyers, judges and social activists.
