

# Press Release

The Eastern Book Company Group, publishers of the law report Supreme Court Cases™ have tied up with the Incorporated Council for Law Reporting for England and Wales (ICLR) to bring to South Asia the Law Reports and the Weekly Law Reports.

The Council publishes the definitive 'Law Reports' since 1865 which are the preferred choice of legal professionals in UK and the Commonwealth and the Weekly Law Reports since 1953 which are the best way to keep up-to-date with cases heard in the Superior and Appellate Courts in Britain. Covering the cases that really matter, which either develop the law in some way or introduce a new point of law; they are the most authoritative reports available.

The publication of the ICLR reports from India and its availability in South Asia will give easy access to South Asian lawyers to the latest developments in English Law. This will be of special value to a fast globalising and liberalising India, the latest principles of law developed in the areas of commercial, business and company law and other new sectors of the global economy will become easily accessible in South Asia.

At the special price at which they will be available will make it affordable to most practitioners. This arrangement is in keeping with the ethos of the EBC group: to provide the legal fraternity with quality legal materials at an affordable price. This relationship with ICLR will go a long way in ensuring that Indian legal literature is enriched even further and the recourses that were available earlier to a select few or merely in libraries will now be easily available.
